World War Animals

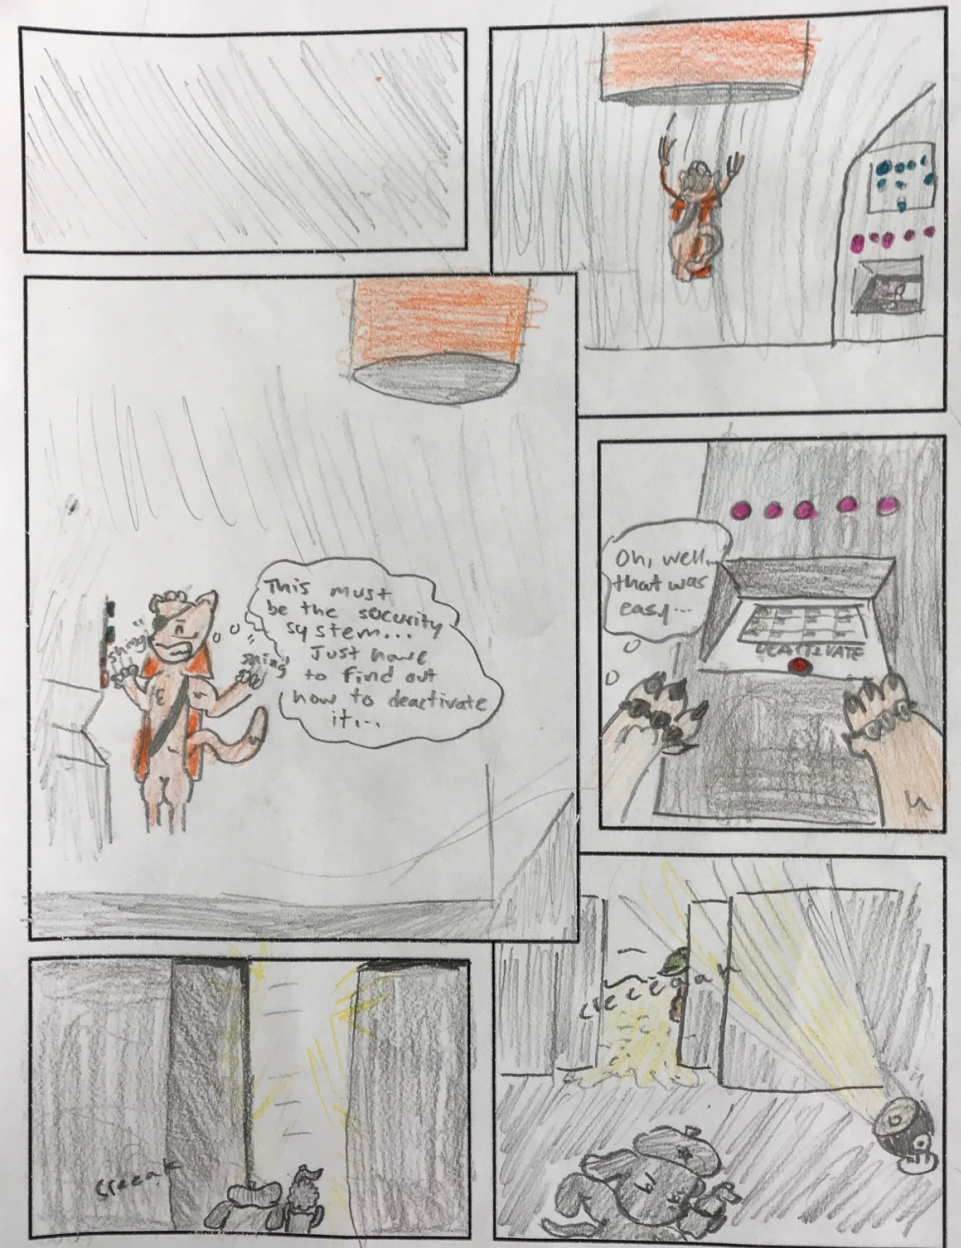

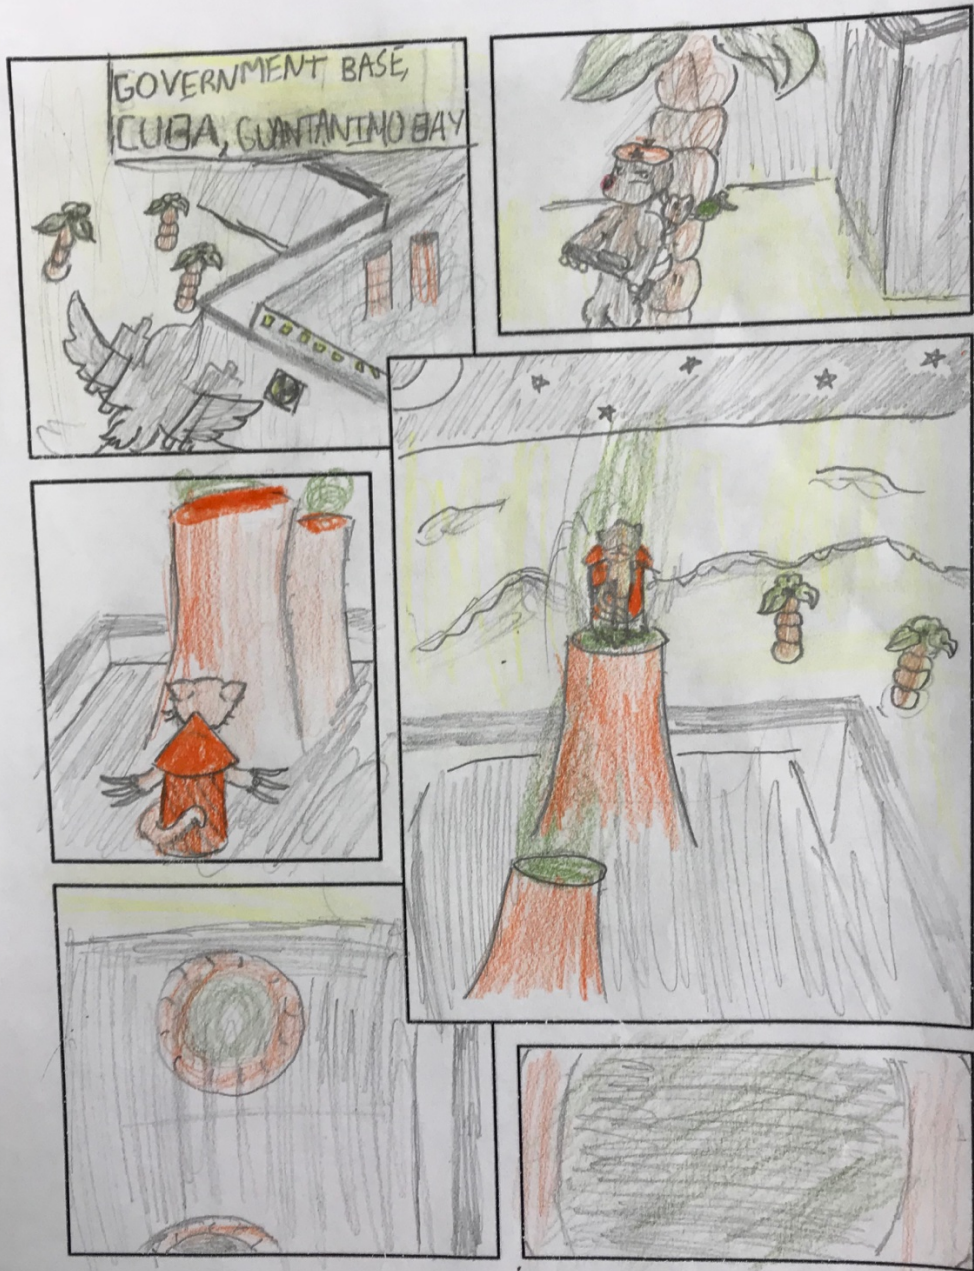

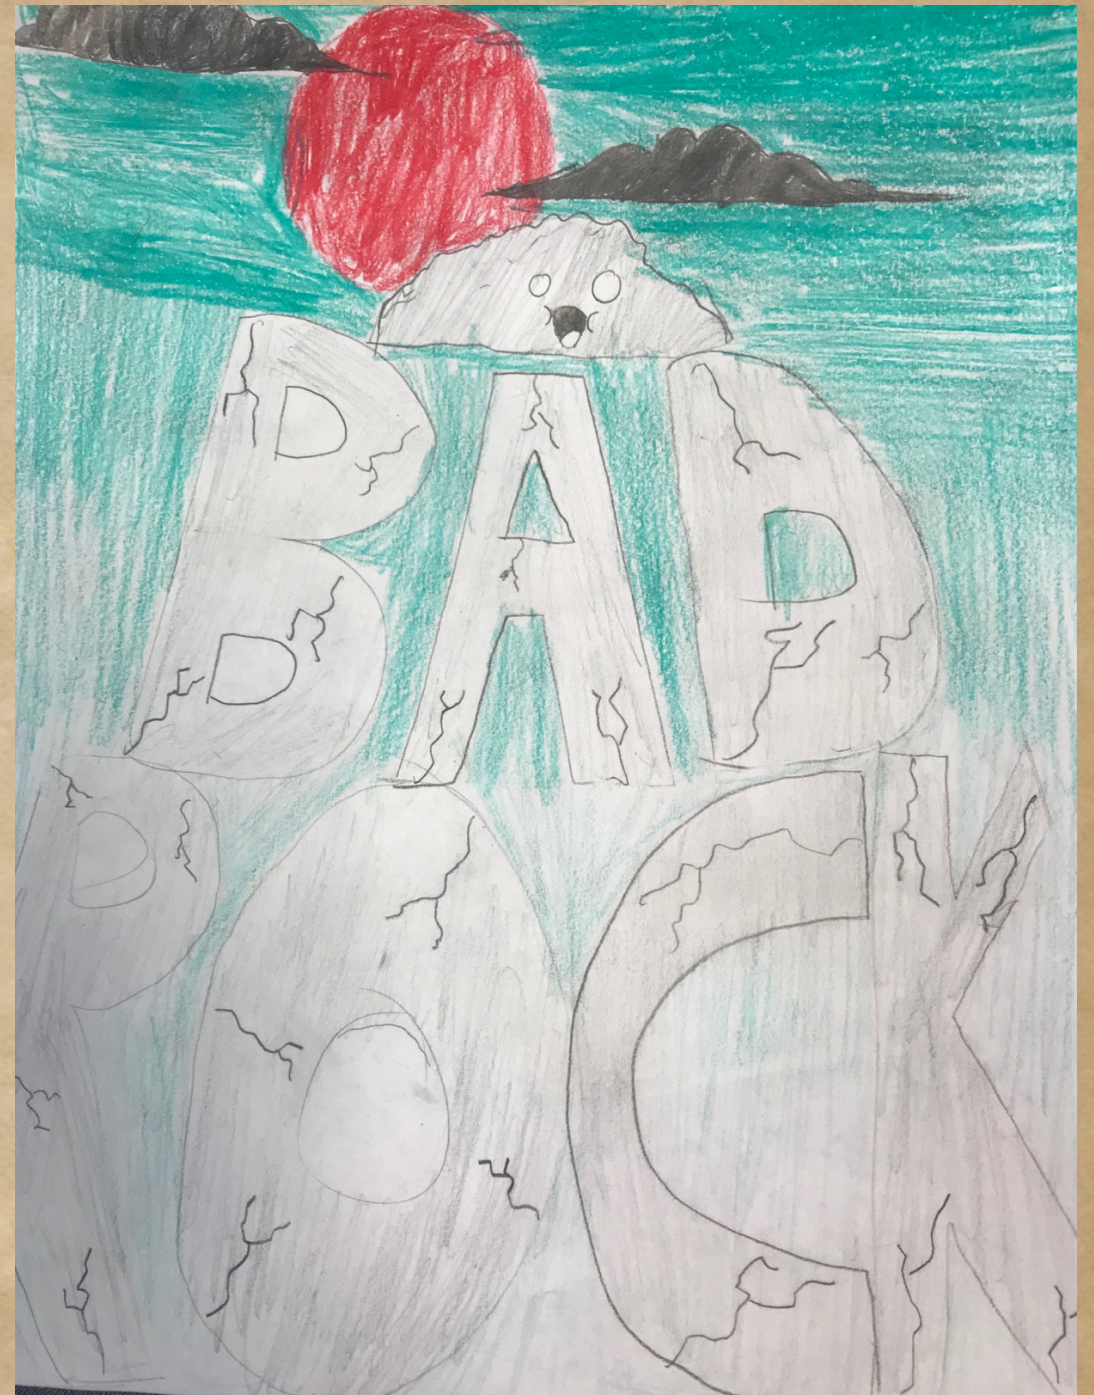

You might've noticed our easy access to some potentially -I mean- extremely dangerous weapons

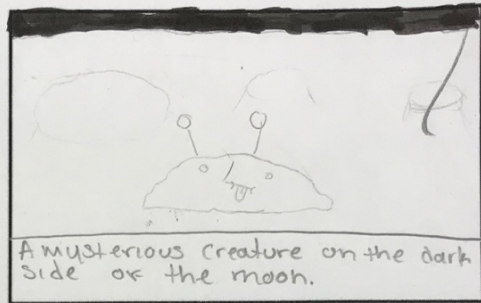

We're actually apart of a team of liberators, we fight for the rights of our people. Even though we come from a different planet, it doesn't mean we are any less than anybody else. This is World War A.

To be continued...

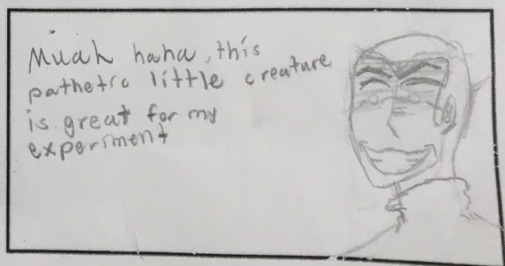

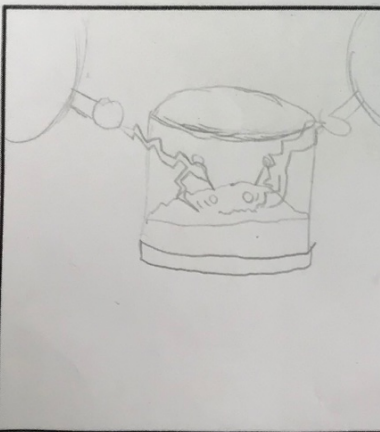

A mysterious creature on the dark side of the moon.

Hey man  
whats that  
over there?

Its a  
weird  
looking  
rock.

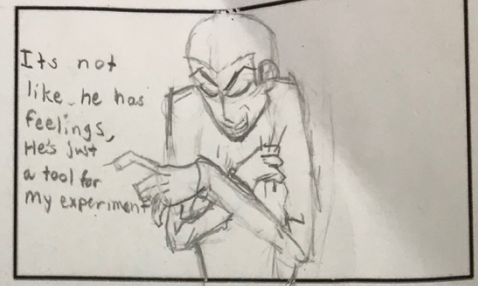

You think  
we should  
take it to base?  
Yes!!

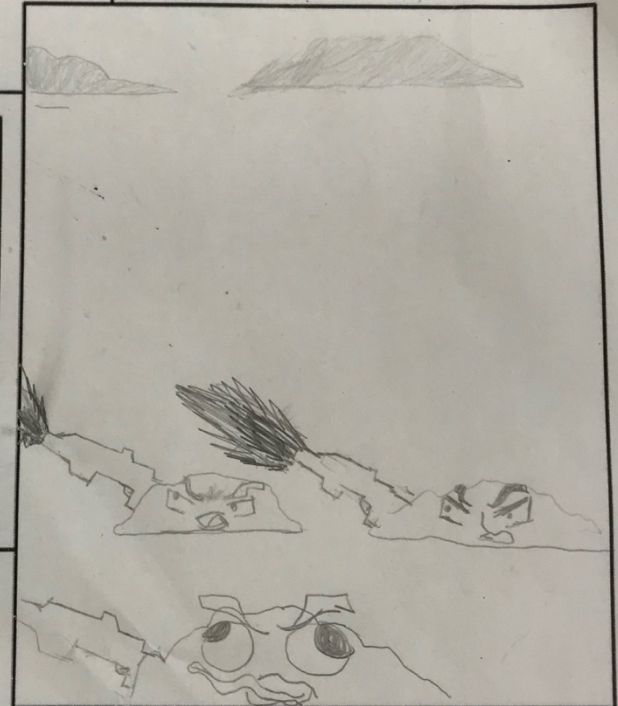

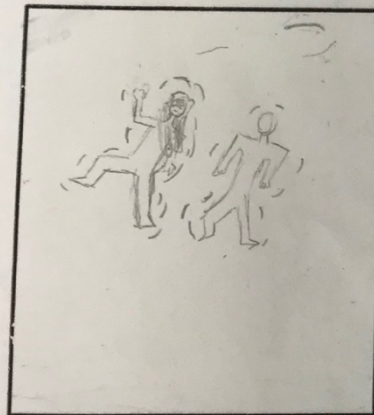

Mwah hahaha, this  
pathetic little creature  
is great for my  
experiment

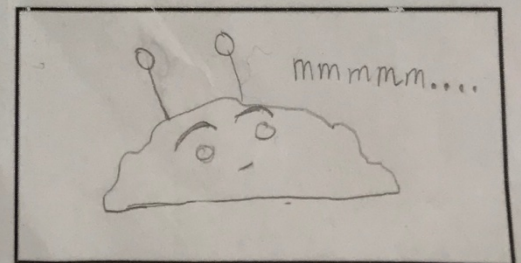

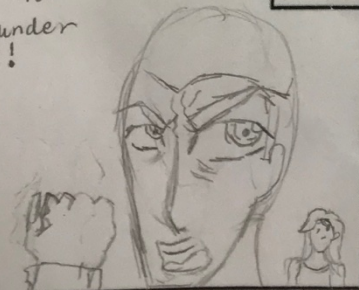

Tsk you disgusting  
scientist. How  
dare you torture  
this poor creature

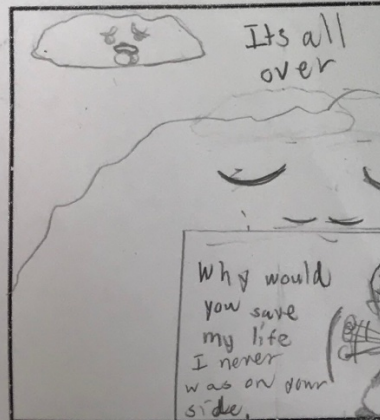

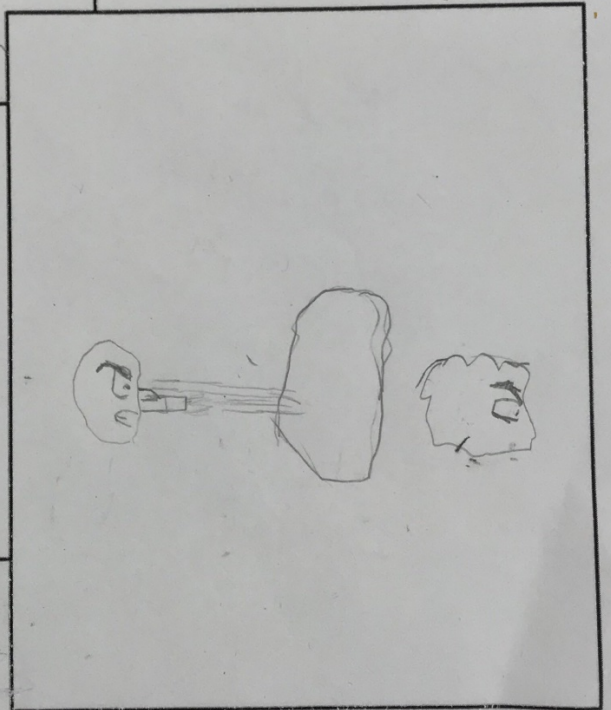

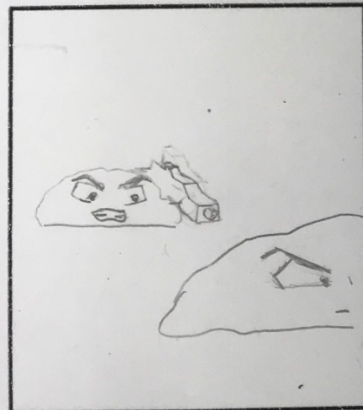

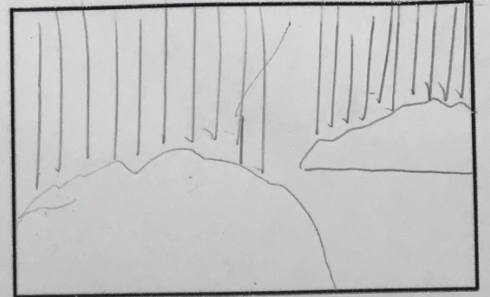

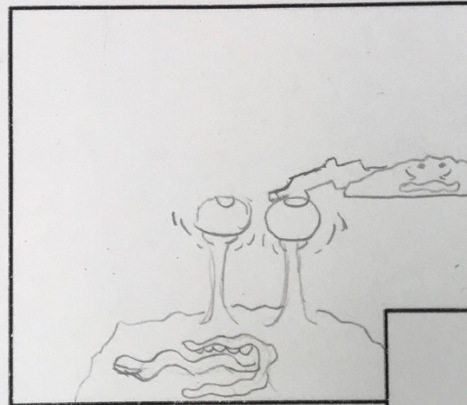

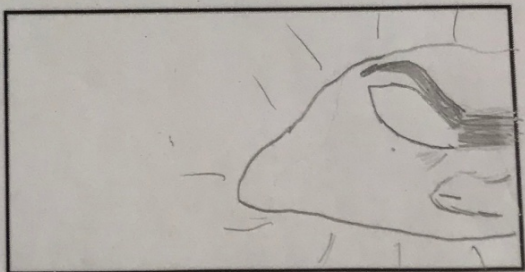

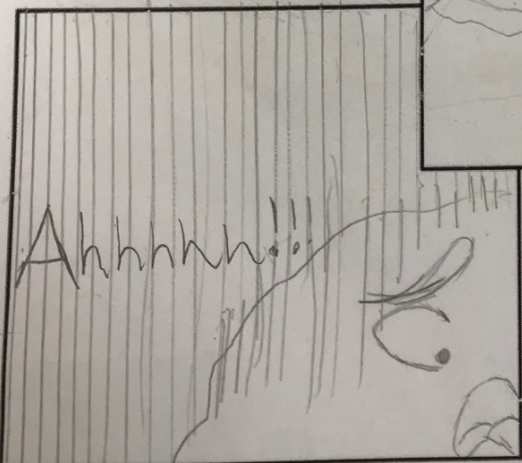

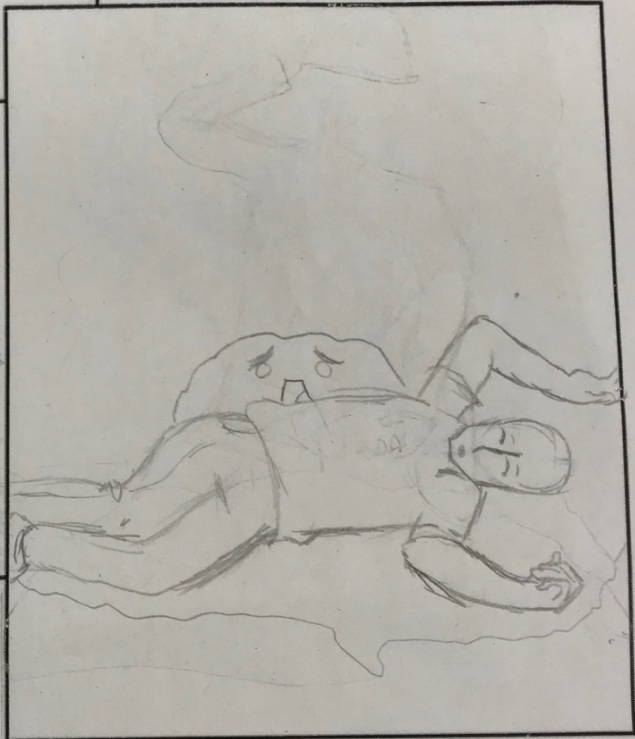

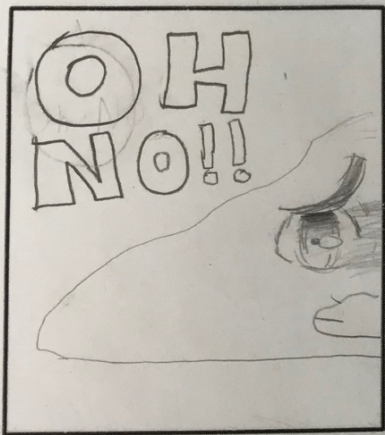

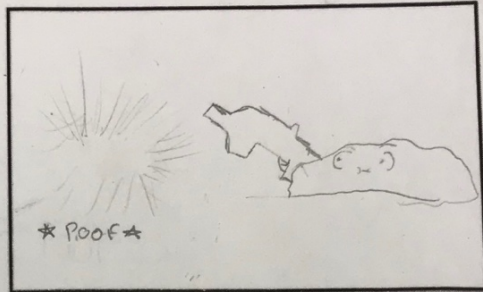

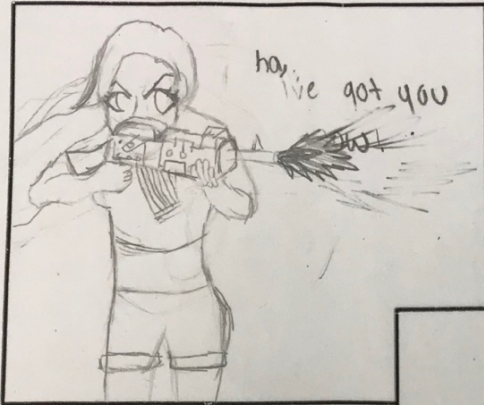

Its not  
like he has  
feelings,  
He's just  
a tool for  
my experiment

Get to cover  
we are under  
attack !!

mmmmm....

Why would  
you save  
my life  
I never  
was on your  
side.

Because No one should  
be able to die.  
Humans may be  
mean but they  
are also  
beautiful creature
